# INTRODUCING A FULLY CUSTOMIZABLE, TURNKEY SOLUTION FOR EV BATTERY ASSEMBLY

JOT Automation's industry-leading Battery Assembly Solution is a fully complete, turnkey solution for EV battery assembly. Highlights include automated unpacking of incoming material, testing, welding applications and final-product testing. The Battery Assembly Solution is built precisely to each customer's requirements and preferences. And thanks to its unique modular design – the hallmark of all JOT products – your options for control are virtually limitless.

The Battery Assembly Solution can be equipped with an array of options, including unpacking, waste disposal, electrical testing, enclosure & casing assembly, PCB assembly, laser welding and final-product testing. Plus the station's compartmentalized design ensures high-grade fire safety to keep its processes and surroundings safe.

## KEY FEATURES:

- › Fully comprehensive solution for automated battery assembly
- › Modular design with options for material handling and testing, including assembly, welding and final-product testing
- › Built-in electrical testing
- › Buffering capability
- › Automatic fail sorting
- › Laser welding
- › High-grade safety
